

2026 PRETRIAL, PROBATION, AND PAROLE SUPERVISION WEEK | JULY 19-25, 2026

Please join us in celebrating this week as [2026 Pretrial, Probation, and Parole Supervision Week](#) (PPPS Week). The theme, ***“Connected for Change: Building Bridges in Supervision,”*** highlights how community corrections professionals create opportunities for officers at all levels to heal together and find solutions to the challenges we face in our field.

Probation and Parole agencies help drive significant, positive changes in our community by providing appropriate supervision and services to individuals placed on probation and parole. Monitoring may take the form of home contacts, drug testing, check-ins, and referral compliance for treatment, employment, education, and government assistance. Many officers also supervise offenders using electronic monitoring equipment, which requires expert knowledge of emerging technologies.

For nearly 50 years, the American Probation and Parole Association has been committed to national representation of the community corrections field. Here in the Commonwealth of the Northern Mariana Islands, the Probation and Parole agencies celebrate **TWENTY-SIX (26) YEARS** of dedication to reducing recidivism and keeping communities safe.

In the wake of typhoons like Sinlaku and Bavi, our islands have been tested, but our spirit remains unbroken. By standing united through every hardship, we find the strength to rebuild, renew, and look forward together toward a brighter, more resilient future.
